

Liners

Our liners offer longer wear life, fast work-hardening properties and reliable change-out scheduling.

NCI manufactures 14%, 18% and 21% manganese crusher liners for different requirements.

With 20 years of experience in casting business, we are determined to produce the finest manganese liners and we are proud to put our name on our products. We offer liner consulting, removal and installation procedures and services, seating pad inspection and repair and troubleshooting.

At NCI, we service all makes and models of crushers. See reverse for full details on the brands we support.
